

OUT
A
SIGHT

the elite shower screen

the **best** kept secret

Outasight offers a unique solution to over-bath and wetroom showering whilst retaining the style and aesthetic design of your bathing haven.

An award winning designed addition to any bathroom, the Outasight creates a stylish 'space saving' finish to any bathroom that fashions a stylish solution to 'permanently there', bulky, unsightly shower screens.

The Outasight screen elevates your bathing experience by creating a perfect and sophisticated showering area that enables you indulge in daily bathing in a more functional manner without compromising the aesthetical harmony of your bathroom.

Expert design and function combine seamlessly to create perfection in showering solutions. Outasight is the ultimate choice; hand-picked by thousands of satisfied customers worldwide.

- 1 year guarantee on all parts of the product
- Available in Polished Silver or Brilliant White

Dimensions available:

1425 x 1425 mm

Bespoke Dimensions
Available on Request

1

The stylish Outsight unit sits neatly on your bathroom wall without the need for fixtures and fittings. with its ergonomic and unimposing design the outsight unit will completely enhance the overall look of your bathroom.

2

Once the front profile has been lifted it will reveal the bespoke designed piston, rail and folded acrylic screen which is held in place by a retaining clip. with the unique design of the shower screen you are guaranteed total anti leakage whilst showering.

3

After opening the screen you will notice that it covers 80% of the bathing/showering area where as other shower screen manufacturers only provide a maximum of 40% coverage; making the outsight screen twice as effective as any other product available.

4

Coated with a specialist dual lamination, the screen dries quickly and can be folded away, restoring the beautiful surroundings of your bathroom environment whilst providing a feeling of 'open space'.

wetroom & bespoke

The idea of a 'completely open' yet water sealed room is a truly innovative design in home bathing. When designed correctly, it is a truly stunning achievement for any home.

A wetroom is completely versatile and can be adapted for small en-suites or large luxury bathrooms, both upstairs and downstairs. The Outasight wetroom screen is perfectly concealed, so no doors or glass, it is the perfect solution providing complete shower screening in a totally open bathing environment.

The Outasight product is the only product that allows your wetroom to be entirely open; no glass showering walls that encroach into the perfect open space you are trying to create. Faultlessly providing superior showering, enhanced access and more space than any other solution in the market. Perfectly designed for you and your wetroom, we provide bespoke measurements to ensure that you have achieved your dream with precision.

**The only sensible choice for
wetroom bathing!**

outasight v's glass screen

BENEFITS:

- Bespoke dimensions for smaller/unusual shaped bathrooms that glass screens cannot accommodate for
- The **ONLY** solution to having a completely open wetroom (no glass) whilst still protecting the highly valuable bathroom fittings and accessories
- The most **ACCESSABLE** solution for persons with disabilities or mobility limitations for either wetroom or walk in shower/baths

Wetroom Dimensions available:

H 1825 x L 825mm, L 925mm, L 1025mm, L 1225mm

H 1925 x L 825mm, L 925mm, L 1025mm, L 1225mm

Bespoke Dimensions
Available on Request

Outasight is truly one of a kind! An original and patented product there is no other alternative in the market; the options are quite simple Outasight, glass or a curtain and rail and we are confident that you will make the right choice.

The total objective of our highly specialist team of engineers and designers was to

develop and pioneer a completely new showering solution that provided greater space, is completely discreet blending 'out of sight' to rest focus on other fixtures and fittings within your bathroom environment and most importantly, safe and hygienic for the entire family,

outasight v's glass screen

NO MORE LIMITED ACCESS

NO MORE LIMESCALE

NO MORE TILE DAMAGE

1 Greater Protection

The 'over bath' screen when fully open extends to 1425mm, providing a greater coverage of water protection than a glass screen. Almost 80% of a standard size bath is covered by the screen once fully extended.

2 Total Anti Leakage

The design of this unique product guarantees that it provides total water protection, that means NO leakages whatsoever! The soft pleated screen sits just inside the rim of the bath and this causes the water to deflect and run straight into the bath. Actually, the higher the water pressure is, the more the screen seals against the bath. Total bathroom protection!

3 Space Saving

As opposed to a traditional fixed glass screen which remains over the bath whilst bathing; the Outasight when closed provides an 'open space' for bathing as opposed to the bather feeling 'trapped or enclosed' with a glass screen. It creates a feeling of 'more space' within the bathroom.

4 Easy access

The Outasight screen makes getting into the bath (to either shower or bathe) or into a wetroom/shower cubicle far less physically demanding than a glass screen. It provides greater and safer access for persons of all ages, particularly persons with limited mobility and disabilities. The wetroom provides totally 'open' entry for wheelchair access and assisted showering.

Outasight makes supporting the bathing of children/elderly in the bath/shower much safer and easier as all areas of the bath can be accessed when the screen is closed. This is not the case with a glass screen!

5 Easy to Clean

All components can be sourced and have been selected for their quality, durability and ease to clean. There are NO special cleaning requirements for the shower screen and Outasight have developed and supply a Treatment Spray for cleaning the screen and all components of the unit (bleach based, abrasive or corrosive cleaning products should not be used as they will damage the screen and components of the unit). Unlike a glass screen which quickly builds residue of product (shampoo, body wash etc) used when bathing/showering, lime scale, water marks on the glass and mould in the seals; a glass screen has to be meticulously looked after to keep the bathroom looking and feeling clean and hygienic.

6 Safety Comes First!

If a person using either the bath/shower/wetroom version were to slip/fall, Outasight is a far safer product which would eliminate any damages to a person if they were to fall into/onto the Outasight screen when open and in use, as opposed to 'glass' which would injure/wound the user.

7 Silver/White Colour Options

The colour options blend discreetly within the bathroom environment and are aesthetically pleasing. The aluminium profile merges tastefully to enable other bathroom fittings to remain the focus within the bathroom.

8 Light Weight

The total weight for the screen is 3.2kg which is considerably less than the weight of an average glass screen; therefore it does not require any structural reinforcement to accommodate the screen and it can be fitted onto almost any type of finished surface (tiling, plasterboard etc).

9 Health, Hygiene & Durability

The screen itself is specially manufactured with a 'dual treatment' to ensure that it will not go damp or discolour. This special lamination combined with the acrylic coating ensures that the screen will maintain its colour, hygiene and durability for years to come.

10 Easy & Simple Installation

The simplicity and ease of installation is inexpensive and does not require a professional plumber/fitter to install. Detailed installation instructions are provided and the screen is installed with 4 x stainless steel screws and silicone.

11 Replacement Components

All components are interchangeable and can be done so without the need to remove the screen from the wall. Once installed Outsight need never be removed again with every component replaceable from the front of the product. Unlike glass screens which many brands require full removal of the screen from the wall to replace worn/damaged seals, hinges and profiles the Outsight can be utilised for life!

The World's Most Elite Shower Screen

For our team at Outasight we believe that not only can the concept of the screens be award winning, but so must every facet of the product from design to manufacturing. Every small detail is meticulously approved by our highly specialist team of designers and manufacturing processes. Each and every individual component has been rigorously sourced from leading UK manufacturers to ensure that the final Outasight product that you place in your home with pride, is of the highest quality and superior to any other showering solution in the market.

The product really is the world's most elite and we wanted to bring the Outasight quality to your attention; we are confident that our efforts should not go unnoticed.

HIGHEST GRADE ALUMINIUM PROFILE

Extruded within the United Kingdom from the highest grade aluminium the screen profile is available in an option of highly polished silver or powder coated white and if cared for correctly should last a life time

'DUAL TREATED' SHOWER SCREEN

The highly specialist screen is manufactured by a global leader based in Germany. The screen is manufactured with a 'dual treatment' to ensure that the screen will not go damp or discolour. The screen is laminated and treated to make it completely power shower proof; the rigidity is exceptional and is 'tear proof'. It will provide continuous daily hygiene, keeping the screen fresh and clean for the whole family. The specialist treatment means the screen after showering when dry can be returned back to its closed position.

BENEFITS:

- Power shower proof
- 'Dual Treated' so the screen will not go damp or discolour
- Special lamination ensures it is 'tear proof'
- Continuous Daily Hygiene
- Family Friendly for all ages
- Screen after showering when dry can be returned back to its closed position after showering

HIGHEST GRADE STAINLESS STEEL PISTON

This highly specialist piston is manufactured by global leading brand CAMLOC. Using the highest grade 316L Stainless Steel rod and tube give increased corrosion resistance in industrial, marine and coastal environments which is why this calibre of piston is the only piston of our choice and used on ALL Outasight screens.

BENEFITS:

- High Corrosion Resistance
- 1000 hours 'salt spray' testing
- 5 year testing 'life capacity'
- (Outasight front profile being extended and not returned to closing position)
- 316L Stainless Steel Rod & Tube
- Custom designed exclusively for Outasight
- Provides soft opening and closing mechanism
- Exceptional rigidity, support and safety

ALL OTHER COMPONENTS

ALL other components are sourced and manufactured within the United Kingdom. Our company and team take great pride in this fact as very few other UK/European manufacturers hold full procuring and manufacturing solutions within one facility. Outasight produce and manufacture in full on home soil, guaranteeing our team have full control of the entire manufacturing and quality processes. Confident in the knowledge that our customers will continually receive the highest quality of products and aftercare.

BENEFITS:

- Complete in house procurement guaranteeing only the highest quality of components are used
- Complete in house production guaranteeing only the highest quality of product leaves our production facility at all times
- Complete peace of mind for our export partners and end users

Outasight is the ONLY sensible solution to protecting your bathroom environment when showering!
